

Committee for European Construction Equipment

CECE is the voice of the European construction equipment industry, representing multinational and mid-sized companies across Europe through 13 national associations.

CECE represents the interests of national construction equipment manufacturer associations in 13 European countries, including Germany, the UK, France, Italy, Russia, Turkey, Finland, Austria, Spain, Belgium, Sweden, Czech Republic and the Netherlands. The sector counts around 1200 companies that employ about 300,000 people directly and indirectly. Their annual revenues amount to ca. 40 billion euros. The sector's durable and innovative machinery are working tools to help to build the houses, offices, factories, roads, railways and bridges that serve citizens across the globe. Manufacturers invest and innovate continuously to deliver equipment with highest productivity and lowest environmental impact. Efficiency, safety and high-precision technologies are key.
