

Green Energy Technologies | Japan

FROM
24 SEP. 2019 TO 27 SEP. 2019

Closed for Application

In 2019, the [Green Energy Technologies](#) [1] market-scoping mission to Japan will be held from **24 to 27 September, in Osaka**. The mission week is comprised of exhibition days, networking events, matchmaking meetings and an on-site visit relevant for the Green Energy Technologies sector.

The mission will take place within the World Smart Energy Week Osaka event in 2019, giving participants the opportunity to **meet a highly targeted audience of potential customers and partners** from electric and gas companies, governmental bodies, local contractors, manufacturers and developers.

The mission is a chance for European companies to identify the right opportunities in Japan and meet the right contacts to start doing business.

The closing date for applications is 24 May 2019.

More in-depth information about the mission can be found in the **business mission information** document.

For further support on the application process, write an email to a representative of the coaching network at coaching.network@eu-gateway.eu [2].

Funded by the
European Union
