

New promising markets in Healthcare & Medical Technologies. Business mission to South East Asia opens for application

15 Dec. 2016

EU Gateway | Business Avenues will take selected European companies to **Singapore and Thailand** from 4-8 September 2017 for a [business mission](#) [1] in the [Healthcare & Medical Technologies sector](#) [2].

This is a unique opportunity to tap into two promising markets with the back-up of the European Union. Up to 50 participants will have their product or **technology promoted in both target markets**, will benefit from **pre-arranged face to face business meetings** and exhibit both in Singapore and at the [Medical Fair Thailand 2017](#) [3].

European companies will receive **coaching** during the application, the pre-departure stage, the business mission week in Singapore and Thailand and after returning to Europe. **Standard services**

are offered to maximise business opportunities and are fully **financed by the EU**. All participants will be featured in a comprehensive **promotional campaign run in Singapore and Thailand**, and a range of customised services is also available and co-financed by the EU.

The **application deadline is 12 May 2017**: [get in touch with our team](#) [4] who will support you throughout the process.
